

INSTRUCTIONS

- A gym diagram must be submitted for each gym in which home games are regularly played.
- Do not leave any measurement or question blank.
- This form must be returned no later than the commitment deadline.
- **SIDELINES.** Measurements from the sideline to walls, bleachers, or benches are ideally clear, unobstructed space. However, if columns, mechanical equipment or similar obstructions exist between seating and the sideline, mark and label those obstructions on the diagram.
- **ENDLINES.** Measurements from endline to wall are the clear, unobstructed space. Any doors or windows located in the endline wall must be indicated on the diagram. Any seating between the endline and the wall must also be drawn on the diagram.

LIGHTING

How many lighting fixtures are over your gym floor?

How many of those fixtures are nonfunctional?
